

MOBILE OFFICE RESTROOM SYSTEM

Lift Kits

Servicing multi-story job sites is a breeze with the NSC Lift Kit. This top-of-the-line restroom is designed to meet the daily site needs of builders and contractors; a cost effective solution to providing sanitation on any high rise construction project. The Lift Kit restroom can be easily lifted by crane and positioned in close proximity to the workforce. Height = 88" Width = 44" Depth = 48"

Lift Kit Restroom

Hand Sanitizers

Mr. Insider Toilet

Has a large holding capacity similar to our portable units designed for construction projects. Easily transported on job sites. Placing equipment close to the work crews helps control labor cost. Hoisting handles. Length = 60" Width = 23" Height = 39.5"

Mr. Insider

250 Gallon Wastewater Holding Tank

Holding Tanks

Holding tanks are typically used under office trailers when a city sewer hook-up is not available or too costly.

Portable Sinks

The 24-gallon fresh water sink is perfect for construction sites of all sizes. Included are 2 spigots with high-capacity spray nozzles -- two soap dispensers and two large lockable paper towel dispensers. Easily accessible foot pumps.

Portable Sinks

Low Flush Marine Toilet

Fresh Water Supply Tank

100 Gallon Wastewater Tank

Pure Water Sink System

Do you currently or plan to have a trailer on a temporary job site and need a sanitation solution? What if there were a way to achieve this without the traditional high costs of running water lines and septic tank? NSC Restrooms has exactly what you need. Please contact us today for detailed information on our temporary mobile solutions for your job or office trailers.

We can install our Fresh Water Flushing Mobile Office Restroom System MORS® in just a few hours. We provide the water supply, the RV toilet, and the waste tank. Once it is installed we service the system once a week from the outside.

- Eliminate the expense of digging and running a temporary water service and septic tank installation. Say goodbye to the days of wasted materials, manpower, and associated costs.
- Once NSC installs a Fresh Water Flush System we are able to service from the outside so office functions are never interrupted.

Pure Water Sink Systems

The Pure Water Sink System is the perfect companion to the NSC MORS® unit. We supply the sink system and you supply the bottled water. Sink comes complete with Hot and Cold water.

Our office trailer solution allows you to promote your companies green initiative to your customers. Effectively reducing your job costs plus with a greener alternative to traditional methods and an increase to your bottom line at the same time; it's a no brainer!

Note: Actual colors and styles of equipment may vary depending on market availability at time of installation.
